ATLAS Platinum PVL-9BP ALI Certified Baseplate 9,000 lbs. Capacity 2 Post Above Ground Car Lift

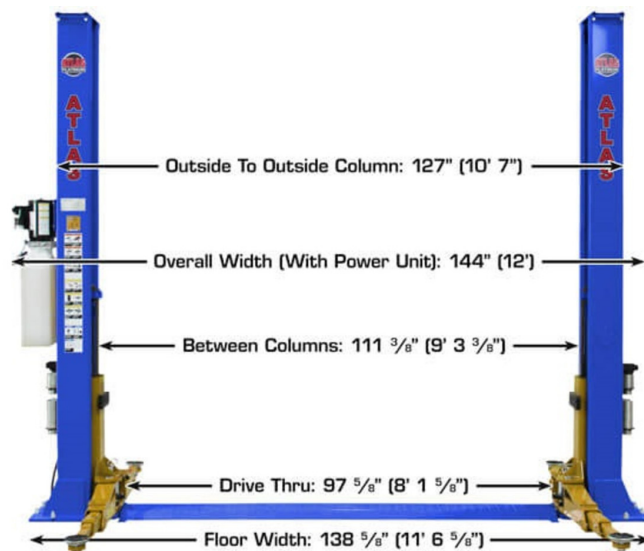

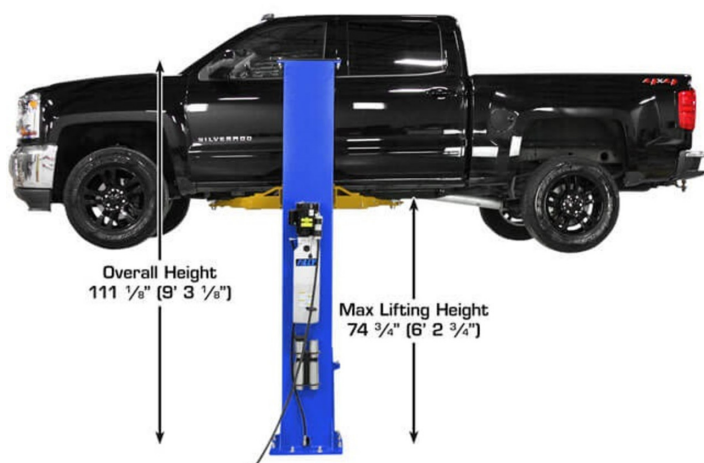

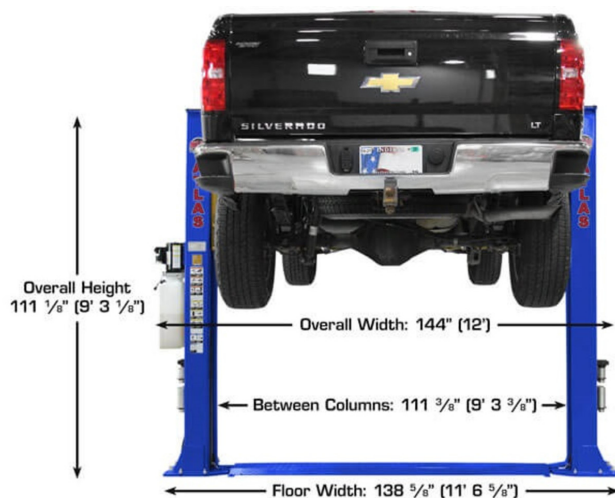

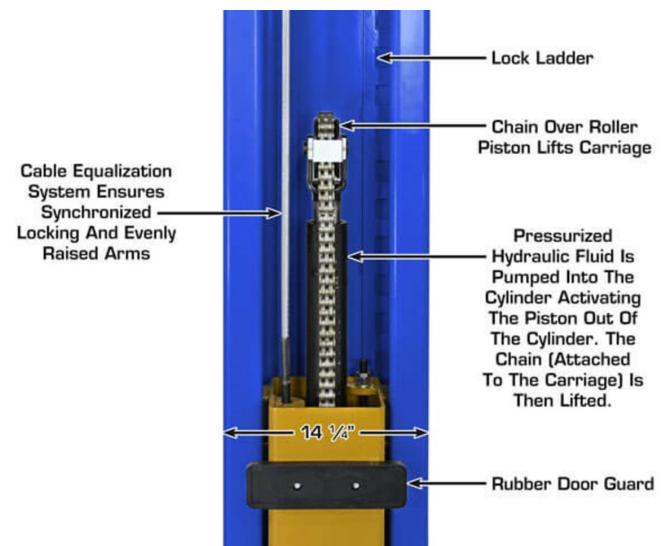

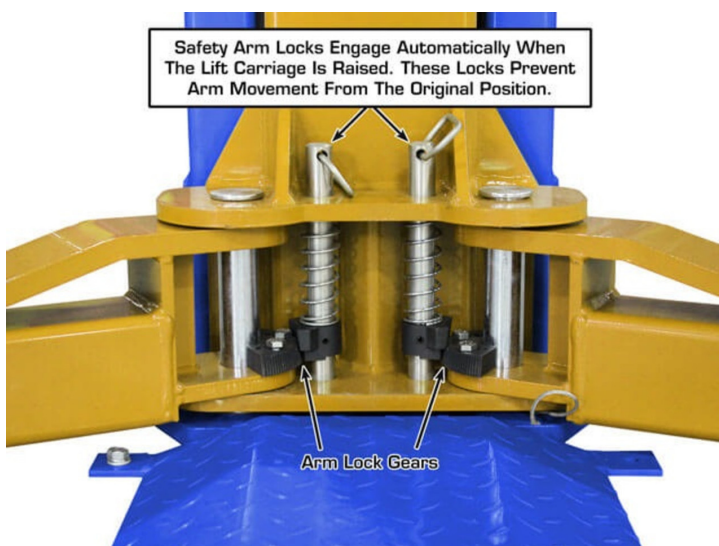

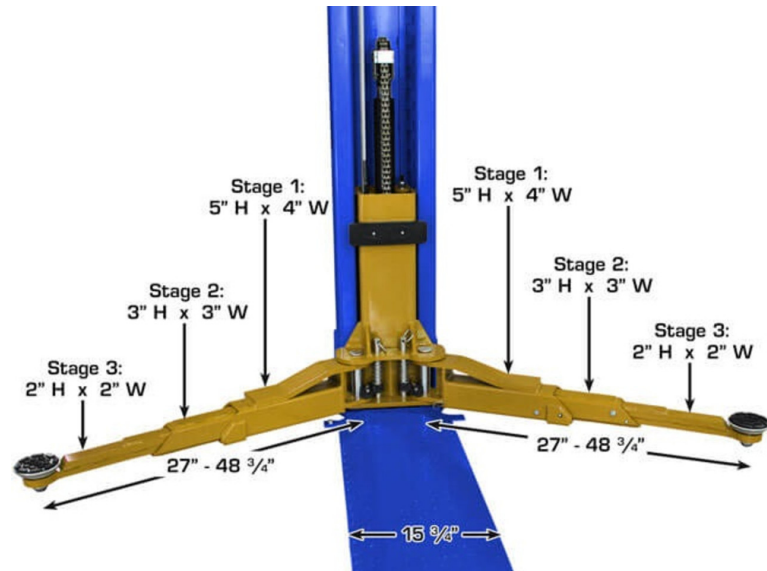

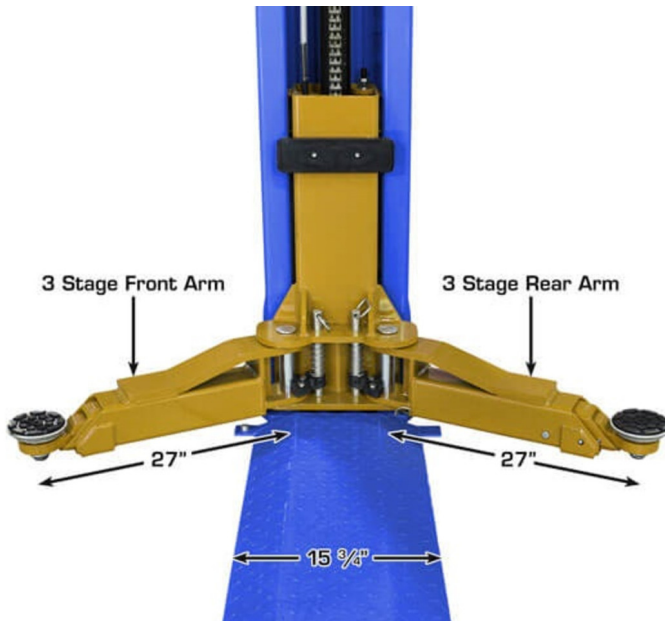

The Atlas Platinum PVL-9BP is an ALI CERTIFIED, 9000 LB capacity, base-plate two-post lift designed for professional service centers. The open-top design of this lift makes it ideal for garages with low ceilings. The total column height is 111 1/8" (9' 3 1/8"). The Atlas Platinum PVL-9BP can lift a range of the most common vehicles on the market, both foreign and domestic, while also having the capacity to handle both full-size pickups and is backed by one of the Industry's best warranties.

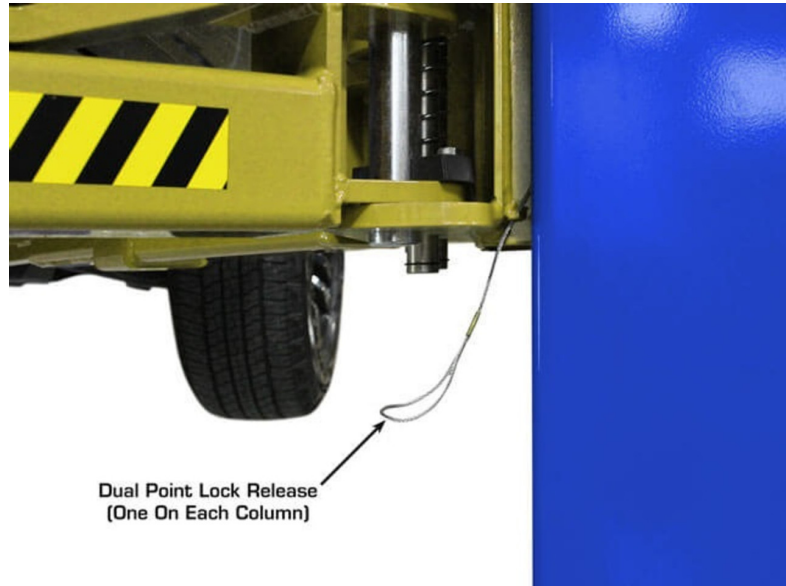

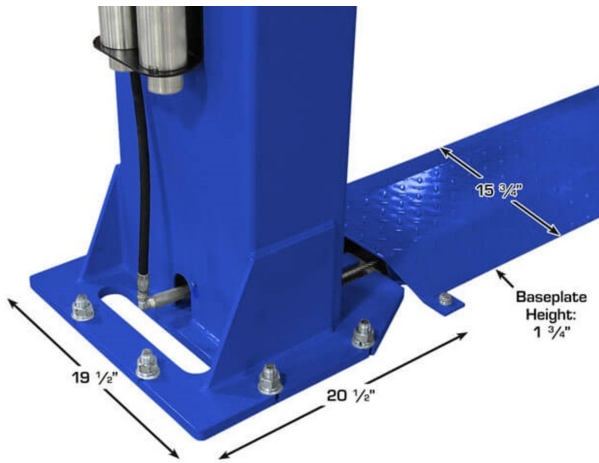

This product features an ALLY Hydraulic AL3000 Power Unit. This premium power unit is certified by MET Laboratories Inc. for electrical compliance in the United States and Canada. Extra heavy-duty armatures and more motor windings with increased silver metal, included in the wires and connections, create far less heat generation. The armatures and motor windings also allow ALLY Hydraulic power units to maintain constant torque through the lifting process. This power unit also carries an industry leading two-year limited warranty.

Features

- 9,000 lb. Capacity
- Symmetric Arms
- Base Plate Design
- Dual Hydraulic Chain-Drive Cylinders
- Secondary Lock System (SLS)
- Free 8 Piece Truck Adapter Set
- Automatic Arm Restraints
- Dual Point Lock Release
- Designed For Low Ceiling Clearance - 9' 3 1/8" Columns
- Mounting Hardware Included
