MODEL ML-220XL

20,000 LB. CLEAR FLOOR 2 POST LIFT

MOHAWK LIFTS

Americas Best Lift Investment...

Still proudly designed, welded and manufactured in the U.S.A.

MODEL ML-220

SOLID, SAFE & PROVEN

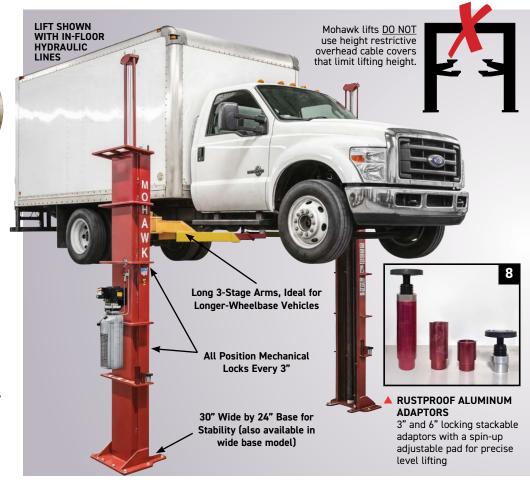

HEAVY DUTY LIFTS FOR... HEAVY DUTY SERVICE

MOHAWK DESIGN

- Mohawk columns are constructed of ³/₄" thick forklift masts, for a lifetime of troublefree service.
- Each Mohawk carriage rolls on 8 double-sealed, selflubricating, steel ball bearing rollers (NOT plastic sliders).
- Two 4" heavy duty cylinders make for safer, steadier lifting than single cylinder lifts or models with tiny cylinders.
- Easily adjustable overhead stainless steel hydraulic lines can be set at any height (or routed in floor) to accommodate all tall trucks and vans.
- 4.5" (lowered height) extra long, three stage swing arms fit under most all passenger cars & trucks.
- Equipped with 3" and 6" stacking adaptors with a spin-up adjustable pad for precise level lifting.
- Standard with three stage swing arms that can reach the furthest lifting points.

▲ Two post lifts offer FULL unobstructed under vehicle access for all repairs, take up minimal bay space and leaves wheels hanging free for tire, brake or any other necessary repairs.

OPERATION

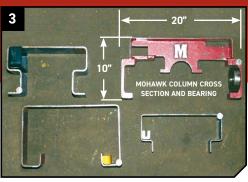

- Hydraulic fluid is pumped between the two cylinders through the stainless steel hydraulic lines. Patented hydraulic synchronization eliminates the need for restrictive height overhead covers, cables, pulleys or equalizer chains.
- To raise the carriages, Mohawk's ML-220XL uses direct drive lifting rods which eliminate the wear & maintenance associated with lifts that use cables and chains.
- Mohawk carriages roll on 8 double sealed, self-lubricating, steel ball bearing rollers, for maintenance-free operation.
- Mohawk bearings eliminate constent friction and wear.
 Competitive lifts use plastic slide blocks that wear out.

MOHAWK PATENTED INDUSTRY LEADING SAFETY SYSTEMS

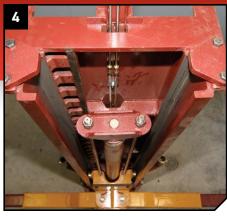

- Mohawk lifts feature **all position** mechanical safety locks in both columns, <u>starting at the ground</u>, to full lifting height.
- Patented, infinite position, internal hydraulic safeties backed by external pressure compensated flow controls and velocity fuse valving.
- Swing arm restraints automatically engage upon lifting and automatically disengage when the vehicle has been fully lowered.

Mohawk's large and stable footprint measures 30" wide by 24" is made of ³√4" thick plate. Mohawk's large base gives stability to the lift, while distributing the load to the shop floor.

Mohawk's fork lift channel & bearing (top right) VS. 3 different sheet metal columns which use plastic slides. Like your fork lifts mast, Mohawk Lifts DO NOT WEAR OUT!

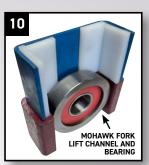

▲ Heavy duty column construction with direct drive cylinders, direct drive lifting rods (not cables) and stainless steel hydraulic lines (not rubber hoses) which will never wear.

▲ Each carriage rolls on (8) 4" double sealed, self lubricating, heavy duty ball bearing rollers for a lifetime of trouble-free service (not plastic slide blocks)

▲ ALL position 1" thick mechanical locks on BOTH carriages engage the <u>full length</u> of travel. Available with optional single point air lock release (requires air to lift).

▲ FORK LIFT CHANNEL & bearing (bottom) vs. competitive columns & plastic slider (top).

▲ LARGE 4" CYLINDERS equal longer seal life and lower operating pressures vs. smaller competitive cylinders.

3 STAGE SWING ARMS

WHY MOHAWK

- Mohawk lifts feature all position mechanical safety locks in both columns, <u>starting at the ground</u>, to full lifting height.
- The best, and most inclusive warranty in the lift business;
 25 years structural, 10 year mechanical, plus limited lifetime cylinder seal warranty.

Mohawk Builds the Best Lifts, With the Best Warranty.

2 POST ACCESSORIES

Safety Weight Gauge

to determine vehicle weight, aid vehicle diagnosis & show lift is lowered onto locks.

Speedlane Adaptor

Slips on quickly for instant lifting without positioning swing arms yet leaves the wheels hanging free for tire and brake work.

MODEL ML-220XL SPECIFICATIONS

Model:..... ML-220XL Capacity: 20,000 lbs. Motor Rating: 4 HP/208-230V, Single-phase (3ø optional) Synchronization: Direct drive hydraulic fluid displacement using no chains, cables, or overhead obstructions **Arm Pad Height:** 5' 11/16" min. Arm Pad Height @ Full Rise: 7' 21/4" (86.2") Overall Width:...... 12' 7½" (151.5") adjustable Width Between Posts: Adjustable 9' 6" to 10' (114" to 120") Width Between Lifting Arms: 103.81" adjustable Column Height: 10' (120") Max. Cylinder Height:..... 13' 6" (162") Overhead Hydraulic Line Height: 15' (180") Standard (adjustable to accommodate any height ceiling or routed in-floor) Weight: 4,100 lbs. Concrete Floor Requirements:..... Standard Base: 61/2" of 4,000 psi concrete Wide Base: 5 1/2" of 4,000 psi concrete Anchoring System: Included (16) 3/4" x 6" bolts Mechanical Safety Locks:..... Automatic; multi-position starting @ 5" off the floor Hydraulic Safety Systems: Automatic; all position Swing Arm Restraints: Automatic upon ascent Cylinders: 2 (1 per column) **Drive System:** Direct drive (using no cables or chains) 3" Frame Adaptors (stackable):...... 4 included as standard equipment 6" Frame Adaptors (stackable):...... 4 included as standard equipment Spin-Up Adjustable Pad:...... 4 included as standard equipment Steel Carriage Bearings:..... (16) 4" diameter (8 per carriage) double sealed, self-lubricating ball bearing rollers Floor Access Between Posts: Clear and unobstructed

Mohawk builds the best products with the finest materials, to the highest standards. Just compare our lifts. Our staff will assist you with a fleet evaluation, design assistance and answer any technical questions you have. We invite your calls.
